Oh Chris, I'm so sorry to hear that. My deepest condolences on behalf of our whole team.

Dr. Geschwind and Dr. Rojas (which whom you spoke earlier) reviewed her records and found everything to be classic for CJD. Because of the possible family history, we very much recommend the family undergo genetic counseling. Genetic testing is typically done as a portion of the autopsy proceedings. Was this set up at the NPDPS? Let me know if you need help figuring any of this out or if there are any questions I can answer for you.

All my best,
Kendra
